

– **Petition** –

To the Honourable Municipal Council of the city of Kamloops Assembled:

The petition of the undersigned residents states that:

Citizens oppose the UN Agenda 21 / Agenda2030 “Smart Cities” and “15 Minute Cities”.

Petition to the Municipal Council assembled, WHEREAS

Canadians want a commitment that the Municipal Council, will uphold citizen rights and freedoms.

- Given the actions of the government in dealing with unlawful mandatory vaccination, masking, business lockdowns, travel restrictions, censorship and peaceful protest of Canadians subverting the Canadian Bill of Rights and the Charter of Rights and Freedoms;
- Given that the United Nations aka World Economic Forum Agenda 2030 “15 Minute Cities” is an authoritarian attack on Canadian's Rights and Freedoms to Privacy, Security and Mobility;
- Given the UN and WEF plan to implement the goals set forth in Klaus Schwab's book “Covid-19 The Great Reset” to hand all government power over to the NWO – which involves the use of smart cities;
- Given that the Agenda 2030 “Smart Cities” will not result in Net Zero Carbon emissions and save the planet as claimed - but instead will result in a cash grab via Central Bank Digital Currency as Carbon Taxes;
- Implementing the World Economic Forum, United Nations – New World Order foreign private corporate Agenda 21 & 2030 will result in “digital authoritarianism” that will be nothing less than an open air neighbourhood prisons where citizens will be tracked and traced by AI;
- According to the December 2020 Carbon Majors Report the top 20 oil, natural gas, and coal corporations have contributed to 35% of all fossil fuel emissions – but are not held accountable;
- On December 15, 2011, Canada officially withdrew from the Kyoto Protocol – which was an agreement to reduce heavy industry emissions of Carbon Dioxide, Methane, Nitrous Oxide, Hydrofluorocarbons, Perfluorocarbons and Sulfur hexafluoride;
- In 2015 Prime Minister Justin Trudeau signed the Paris Agreement with a commitment to spending \$2.65 billion over the following five years to help developing countries battle climate change – but little to none is subsidised for Canadian's to purchase renewable energy sources (SOLAR) or green transportation (EV);
- Canada Security Intelligence Service (CSIS) recently warns that technological innovations adopted by municipalities could be exploited by adversaries such as the Chinese government to harvest sensitive data, target diaspora communities and interfere in elections;
- Accountability placed on consumers NOT producers while sustaining the wealth of Big Business is not the solution for a green future. Creating a road to self-sufficiency is the solution as the less dependency on outside energy and transportation fuel the greener the future will be;
- Canadians are not willing to hand over our sovereignty, rights, security and freedoms to foreign corporate private control – regardless of any such Green Agenda;
- Canadian Citizens want a public statement from the City Council, that they will reject unconstitutional agenda and uphold the rights and freedoms of Canadians regardless of any Climate Action Plan forthright;

We, the undersigned citizens and residents call upon the City Council to:

1. Desist implementing the private foreign corporate UN, WEF, Klaus Schwab Great Reset “Smart Cities”;

*2. Call upon the **City Council**, to publicly commit to uphold The Charter of Rights and Freedoms and the Canadian Bill of Rights;*

*3. Call upon all **City Councillors** to follow Canadian Law and represent your Citizens instead of foreign corporate private interest;*

Canadians feel our government has been following a foreign corporate unconstitutional agenda and demand the laws of Canada be followed instead.

Dated this _____ day of _____, 20____.
